

Development Bank of Japan Inc.

Joint hosting of the LTIC Steering Committee Meeting and the D20 Conference Tokyo 2019 with LTIC and JBIC

Development Bank of Japan Inc. (“DBJ”) together with the Long-Term Investors Club (Werner Hoyer, Co-President, “LTIC”) and Japan Bank for International Cooperation (Tadashi Maeda, Governor, “JBIC”) jointly hosted the LTIC Steering Committee Meeting and the D20 Conference Tokyo 2019 on April 26th, 2019 at Mandarin Oriental Tokyo.

DBJ and JBIC are both member institutions of LTIC, an international organization created in 2009 with the aim of bringing together major worldwide institutions to emphasize common identity as long-term investors, to encourage cooperation and to foster the right conditions for long-term investments in promoting growth.

As an annual event, LTIC’s general meeting of member institutions (LTIC Steering Committee Meeting) is held to discuss issues related to the organization’s management and purposes, each time one month prior to the annual G20 Summit at the G20 hosting country.

In conjunction with the LTIC Steering Committee Meeting, the D20 Conference (D stands for development finance institutions, or DFIs) is held every year at the same timing and in the same country. At the D20 Conference, non-LTIC member institutions with similar natures and missions as the member institutions are invited to specially arranged keynote speeches and panel discussions related to long-term financing and investment.

With the Osaka G20 Summit this June in scope, DBJ and JBIC played host to these annual LTIC events at which distinguished worldwide players gathered to discuss issues on quality infrastructure development towards sustainable growth. Please see the appendix on the program of the D20 Conference Tokyo 2019.

Based on its group philosophy, “Designing the future with financial expertise,” in collaboration with related players inside and outside Japan, DBJ will continue to support innovative challenges that address infrastructure development and other social issues.
